A Message from the Bruce County Early Years Supervisor

Hello EarlyON Families!

The EarlyON Child and Family Centre team and partners have worked diligently over the summer to realign services and develop a plan that provides community based programs to improve positive outcomes for children and families. Program enhancements have been made, including name and description changes that reflect a Discovery Based, Bruce County Explorer, Family Focused Attitude!

We Are On the Move!

The Ministry of Education supports a "School's First" focus for EarlyON locations. I am thrilled to announce, starting in September, Bruce County will be directly operating four main EarlyON Child and Family Centre program sites. In partnership with the Bruce-Grey Catholic District School board and the Bluewater District School Board, these sites will be located in Chesley, Kincardine, Port Elgin, and Wiarton!

Our Promise!

We will continue to work closely with service providers and local school boards to maximize opportunities for families to access service, customize services to improve outcomes for children, and provide a seamless transition from early years' system programs to school entry. In response to community need, outreach programs will continue in locations across the county. During this time of transformation, we are excited about future program opportunities for families and look forward to building a strong community together!

A handwritten signature in black ink that reads "Kathy Johnston".
