

COUNTY OF BRUCE AND TOWNSHIP OF HURON-KINLOSS

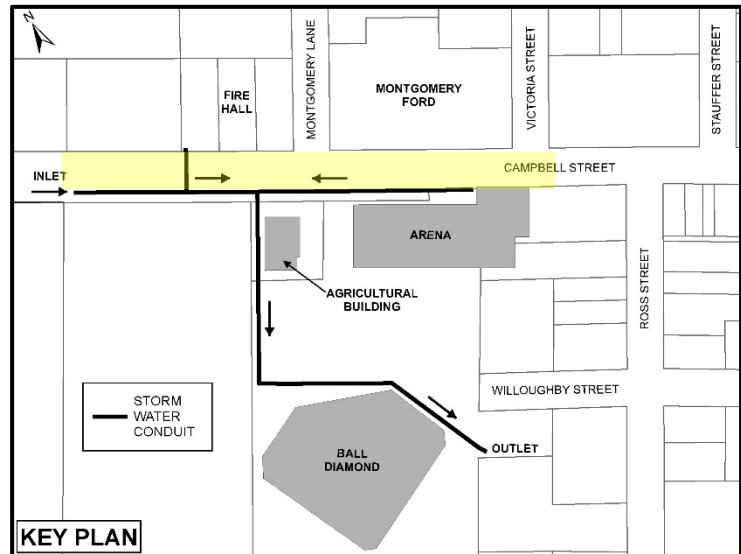

CAMPBELL STREET RECONSTRUCTION WEST LUCKNOW STORMWATER IMPROVEMENTS

PUBLIC NOTICE OF CONSTRUCTION

The County of Bruce and Township of Huron-Kinloss have awarded a contract to improve storm water drainage along Campbell Street, west of Ross Street in Lucknow, as shown in the included key plan. This work is being undertaken in conjunction with the County's rehabilitation of Campbell Street between Victoria Street and the former village limit to the west.

The project is scheduled to commence after July 2nd and is to be completed by August 31st.

Campbell Street is a full reconstruction project including the installation of a new storm sewer, rehabilitation of the roadway with new curb and gutter, paving, new sidewalks, and a pedestrian crossing at Victoria Street.

The installation of the new trunk storm sewer around the arena site will allow for the proper decommissioning of the existing conduit under the arena.

During daytime construction activity one lane of traffic will be maintained at all times and delays should be anticipated. Two full lanes of traffic will be restored each evening.

Your patience and cooperation are appreciated.
